

Risk Assessment Policy

At Primrose Hill, we require our staff members to conduct risk assessments and review them regularly.

The nursery rooms and garden area are checked every morning before the arrival of children to ensure that we provide a safe environment for the children to play in. Staff also risk assess any environment that children will be taken into, for example transport in cars. If there are plans to take children into unknown environments staff will endeavour to carry out risk assessments in advance so they are aware of any potential hazards, although this may not always be possible.

Records are kept and are stored in a file. These documents are available for any parent to see on request.
